Solemn Remarks

*"O my Allah, You are the Possessor of Grace and Blessings,
And I am the possessor of mistakes so pardon me;
Because my opinion regarding You O my Lord is one of beauty
So my Allah, make this good opinion a reality.*

*O my Allah, don't punish me for I
Indeed confess to those sins which came from me
The people think good of me but I am
The worst of creation if You do not pardon me*

*I have relinquished the created totally seeking Your pleasure,
And I have orphaned my family that I may see You;
And even if You were to tear me, by my love, into pieces
My heart will not yearn for anything besides You.*

*Pay no attention to the feeble one who has come to You
And has come hoping, hoping for Your Call
And even if, O Muhaymin, he has disobeyed You
He has not prostrated to a deity besides You*

*My Allah, Your sinning slave has come to You
Confessing misdeeds, and he has supplicated unto You;
Thus if You forgive, then this is worthy of Your Grandeur,
But if you reject my plea then who will have mercy other than You?*

*O my Allah, I have repented from every disobedience,
With sincerity, in hope of salvation;
O Aider of the appealers, aid me
Through Your Grace on the day they the sinners will be seized by the forelocks."*

(Dua of Ibrahim Bin Adham)

First of all I'd like to show my fullest gratitude towards my creator, who have always been benevolent, merciful and bountiful towards me and it's only his largess that today once again holding the pen in my hands I can write something on a very important subject.

Black Magic & Demons (Easy Cure) is basically an inditement in which the knowledge about Black Magic, Demons, Spiritual diseases, their effects, symptoms and easy to conduct treatments have been introduced. As well as have given you the awareness of the difference between spiritual diseases, Evil diseases (Black Magic, Demons etc.) and common psychological problems.

Unfortunately however living in a civilized, educated society we start to believe common psychological problems as Black Magic or Demon's disruption. In this particular situation the patient is dragged to the quack spiritual gurus and saints where talking about recovery is impossible but the patient attracts more psychological burden and become more and more sick.

Adding to elegance by visiting such quacks patients and their relatives get into the trap of negative belief system which is one of the biggest spiritual disease itself.

This is why we find two important divisions in our society, one who get into the trap of quacks because lake of knowledge about the particular subject and their negative belief system and as a result not only they lose their money but also they get into more and more negativity and negative belief system but still they don't want to search for the truth because their negative mind set and belief system don't allow them to do so.

Second those who totally deny the evil diseases (Black Magic, Demons etc.)What all they believe is psychological and physical illness. Black magic, demons is no more than a fairy tale or figment to them. The ego and the society they live in don't allow them to even think about the cure of these evil diseases when they get affected. As a result the evil diseases by and by finish them internally and they finally attract a chronic physical or mental disease. Therefore these both divisions are somehow not moderate.

It's impossible to deny the black magic, demons and their effects, but to believe every problem and issues as an outcome of black magic or demons and their effects is a result of either lake of knowledge of this subject or a wrong and negative belief system. This is why with the help of this e-book I'm trying to make you aware of the facts and going to explain spiritual, evil & common psychological diseases so that every reader can make the most of this e-book.

Belief Systems & It's Importance

What is a belief System?

Belief system is an important factor of our physical reality. Everybody posses a particular belief system and spends life according to it. Nobody in this world can claim to have no belief system. Therefore every human either consciously or unconsciously following a particular belief system and his/her life is circling around that particular belief system. Belief system plays a vital role in every field of life.

How do Belief System Forms?

Well, while many factors can form belief systems, the 2 most important are your parents and your early education. Generally we inherit the belief systems from our parents, grandparents, uncles, aunts etc. and either consciously or unconsciously we start to follow these belief systems and make them a part of our life. By and by when practicing these belief systems our mind get used to them and it becomes impossible for us to change them and if we try we get psychological depression, tension, fatigues etc.

We adapt beliefs from our early education this is why it's highly advisable to choose the right academy for your children; otherwise the result will be "A TRAP OF NEGATIVE BELIEF SYSTEM".

Like that we come across different beliefs from our friends, relatives, near and dears some of them we ignore and some of them enthrall us and they become the part of our belief system and then our life circles around these beliefs.

Beliefs should not be measured on your likings and disliking but what will be the outcome of those beliefs in your life. When you become successful in evaluating it then you will be able to distinct the right and wrong beliefs. I know it's not as easy as snapping your fingers but you have to get your mind used to doing this.

Now if we talk about those negative beliefs which have already become the part of our belief system how to get rid of them?

For sure it's not an easy job to get rid of them because our mind has got used to them but where there's a will there's a way.

The best thing to do in this scenario is to adapt the" QUESTIONING". Make your mind realize about the right and the wrong belief, furnish both right and the wrong belief to your mind and explain the

advantages of the right belief and the disadvantages of the wrong one then ask question to your mind about the different significance factors of the both beliefs in your life and let your mind to evaluate.

Trust me it's the best weapon I've ever come across just by practicing it for a few weeks you will see yourself how your mind starts choosing the right beliefs.

Beliefs & Faiths

Beliefs & faiths are strongly connected to each other. Belief system is an important factor of our physical reality therefore when we adapt a belief then our mind starts to conforming it and as soon as our mind get used to it, it becomes our faith consciously or unconsciously. Finally this faith becomes really stronger that we start to analyze and evaluate our daily life things with this faith and this faith compels our mind and our senses to see, hear, feel and find things accordingly.

Let's say, Mr. Farhan has adapted the belief about the existence of Black Magic & Demons and every wrong thing that happens caused by these evil factors. Now by and by the his mind would start to conforming this belief and once the mind get used to this belief it would become his faith and at last this faith would always compel his mind to see any happenings as a result caused by these evil factors (Black Magic & Demons).

Sometimes faiths like this become really strong that people start to hallucinate. This only happens because of our ill faiths that compel our mind and sense and have them have the rides of hallucination.

To prove of the power of belief you may do a simple technique. Just sit quietly at a pleasant place and focus your mind towards your right hand and start to belief as if it's getting hot and believe me after couple of minutes you will start to feel the temperature of your hand is rising.

It's faith that had always helped mankind when they used it the right way. Yes it's only faith that the messengers, saints, monks, gurus created miracles and have always defeated the evil.

There's no harm to believe in the existence of evils like (Black Magic & Demons) but believing that every wrong happening is a result of these evils is not wise. This mind set would only lead you towards the trap of Negative Belief System and you would become psychological and spiritual ill.

Blessings & Curses

You definitely have come across some people in your life that are believed to be jinx or have the power of curse and can destroy anybody's life with their curses, or whatever they curse would surely happen. It's a common happening and I've found so many people having different opinions about different people like this jinx and curse stuff and they literally feel scare to say even the righteous things to such people because they believe if they curse them they will be destroyed.

What the heck!

Believe me your negative believe system playing with you. You come to know about a person who's believed to have powers to curse anybody and this why people remain really cautious with him/her.

Don't you think it's a belief as well???

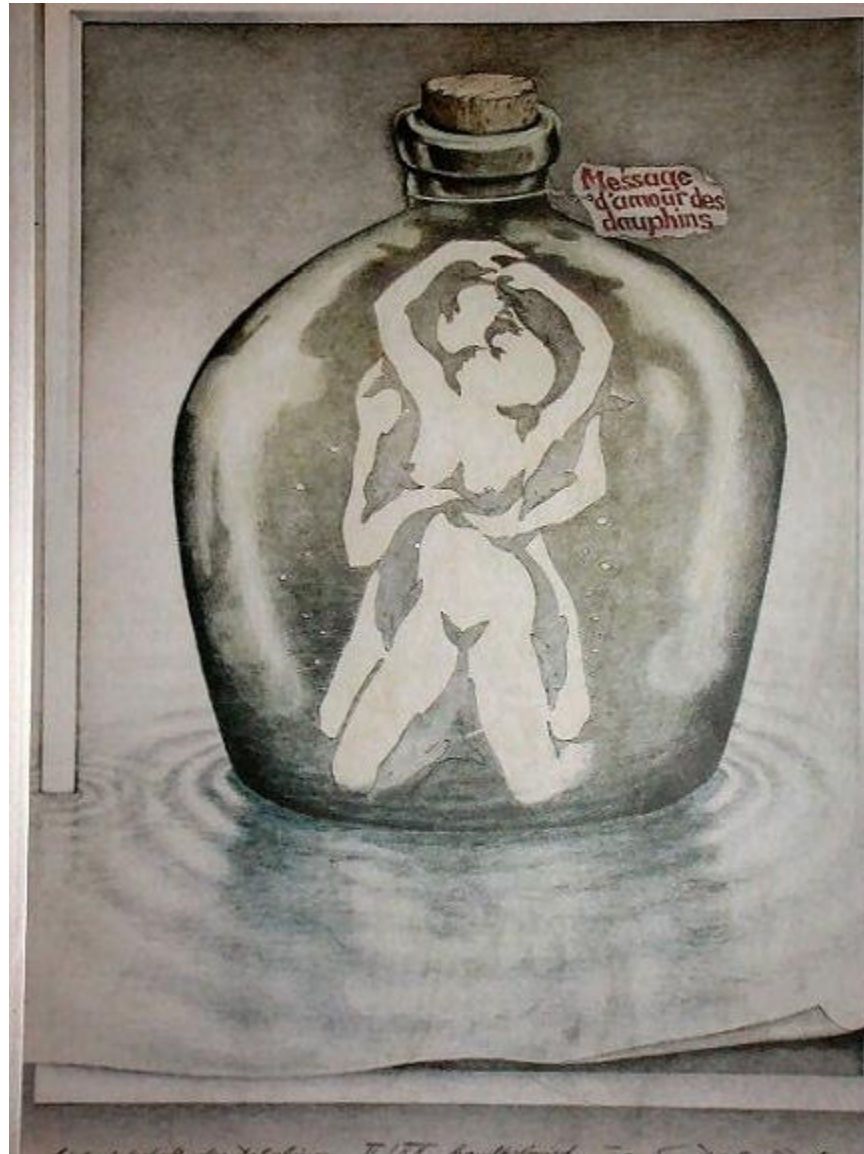

So you adapt the belief consciously or unconsciously now every time if the particular person curses you, your own belief system and your faith will create a reality for you where you find the happenings accordingly.

How beliefs create realities

Well let me explain with the help of an illustration that how our beliefs create our reality

See the next page for the illustration!

Look at this picture what do you see?

Don't move towards the next page until you're sure of what you see!

As an adult you most possibly saw an erotic image of a woman in the arms of a man. You saw this figure because you are aware of what sex is, and have been exposed to sexual images throughout your life.

However this picture is an optical illusion.

At other hand when children are asked what the picture shows, they say nine (small & black) dolphins and cannot see the erotic figure!

As young children are not aware of sex, their belief systems only allow for them to see things which they think are possible. Since they are not aware of sex, there's no possibility for them and therefore does not exist.

Now that you are aware there are dolphins in the picture, try and find them.

I See Dolphins!

So what has happened here?

This image shows you reasonably factually how your beliefs selectively filter your reality and therefore determine what you see and experience.

The Reality of Beliefs

Without one piece of fundamental information (i.e. the existence of dolphins) a portion of reality associated with that information is not visible to you. In other words, had not known there were dolphins in the picture you most probably would not have noticed them. But once you are aware of this information, your awareness of reality gets develop and now you can see both the erotic figure and the dolphins.

Negative Beliefs Negative Reality...

Imagine about the implications of this in daily life....

If your beliefs influence what you see and experience, how are the beliefs you currently hold determining your own reality?

What May Seem Impossible to One Person May Seem Possible to another It is also important to make sure that your beliefs are yours and yours alone.

Many of your beliefs are created or influenced by TV and other people.

However these beliefs often give us an artificial vision of reality and only serve to limit your own beliefs, or make you believe things that are not true.

Learning From Beliefs...

What we learn from the dolphin picture is that your beliefs have an enormous influence on shaping your reality.

Disadvantages of Negative Believe System

Negative believe system makes your spiritual body weaker and unfortunately it's the high time for evil to overcome you either its black magic, demons, evil spirit or any other evil body. Evil bodies always search for the victims with weak spiritual body. When you conform negative belief system you're actually making your spiritual body weak which is supposed to be a protector against evil and when your protector becomes weak evil finds it's a real easy to take over. At other hand even if you're not taken over by evil but your negative belief system lead you towards psychological problems and become spiritually restless, feeling nervousness , anxiety , depression and many other problems.

Negative Thoughts

One of the major spiritual diseases that attack because of negative belief system is negative thoughts which are supposed to be the root of all other issues. Negative thoughts can be of many kinds, ex. Unknown fears, phobias, incredulity on everybody, making wrong opinions about people, always looking the darker sides, looking for negative in anything, not being appreciative & generous and many similar issues. Once you get used to negative thoughts the next step will be negative actions. When you make negative opinions about someone you keep thinking about him/her and keep making plans to harm him/her in some way and let's say if something wrong happens with him/her you will feel joy in yourself. When you being incredulous you won't share your issues and problems with others, as a result you will take wrong decisions and make trouble for yourself and for others as well or otherwise will be depressed and get into other psychological problems. When think negative of everything won't be able to take any task and fulfill it or otherwise choose the negative way to fulfill it. People with a negative belief system either consider themselves to be very positive, reasoner and wise or think to be very naïve, godforsaken and oppressed. Inferiority or superiority complex can be easily seen in these types of people.

Psychological and Spiritual Disease

There are three important works of our mind:-

- 1. To Think*
- 2. To Feel*
- 3. To Intention*

And all these three have two aspects constructive and destructive or you may say one is healthy and other is sick. Our bodies have two important things material and spirit/soul. Material is used for the creation of our physical body and spirit vibrates it or in easy words our spirit gives it life. Now there are two more thing plays important role in this vibrating physical body or lively body which are Organism and Mind/Spirit so if your physical body is healthy you're organic healthy and if you're Mind/Spirit is sick you're spiritually ill or psychologically/mentally ill.

There's a factory in human body in which emotions are created and emotion needs the raw material of thinking, feeling and intentions for its creation.

Now what if the raw material is defected?

Surely the emotions will be cheap, dirty, destructive and negative.

But what if the raw material is of good quality?

Surely the emotions will be positive and constructive.

If we think over carefully we come to know that negative belief system can only provide us the defected raw material of Thinking, Feeling & Intention. And positive belief system provide us good quality raw material of Thinking, Feeling & Intention.

Chronic spiritual & psychological diseases leads you towards organic sickness at other hands there are only few people I come across which becomes spiritual and psychological sick because of chronic organic diseases.

If we ponder deeply we come to know that there are definitely psychological/spiritual aspects behind almost every sickness but if you right away mention this fact to them they will runaway and mistrust you. If you say a sick person right away that you're not sick it's only because of spiritual/psychological disorder then surely he/she will be puzzled so try to make him/her understand slowly by keeping in view his/her temperament so that he/she gets encouraged and only then advice the solution and treatment.

Unfortunately we really feel the absence of such healers who can listen to the patients carefully by keeping in view their temperament, their background with kindness and help them and motivate them to transform their hopelessness to inspirations. Generally these types of patients are prescribed antidepressants and sleeping pills and when they become tired of using them as of no improvements in overall situation they wander here and there and entrapped by QUACK saints, sufis, hermits, gurus.

Some say there are hundreds of demons following you or it's because of some bad spirits and the easiest thing is to say BLACK MAGIC has been casted on you and the game starts and QUACKS start to rip them off and ask for money time by time. They give some talismans to bury in a grave or show them voodoo doll or any absurd things like this and do the foolish treatments. No doubt the patient starts to feel better and sometimes much better because for the time being he adapts a temporary belief that I'll be cured by all this and thus his belief creates a temporary reality of relief.

But for how long?

At last because of all these negative and foolish treatments the patient gets more spoiled and filled with negativity. Sadly the patient goes to these QUACKS for a treatment of single issues and they bump him/her into the swamp of issues.

INNOCENT DEMON

There are two type of demons can be found these days one is DEMON and other is INNOCENT DEMON, Confused? Ok ... let me explain you the difference.

If we basically talk about our society INDO-PAK so we come to know of many cases where a person is possessed by a demon and these types of cases can be found more with women as compared to men.

Actually women are gentle-sex filled with oversubtle & feeble emotions sometimes and complicated and there more fear factor in them because they are gentle and they are created like this.

Demons don't have any other things to do that they always try to possess a women?

When a person can't express his/her feelings, emotions and find nobody to share or otherwise is neglected then he/she becomes frustrated, start to suffocate, feel the inferiority or sometimes choose to prove his/her self with wrong ways therefore both the situations are not good.

People who get neglected always search for attention, they want to be noticed, and they want to be heard and this situation if remain constant makes them spiritual/psychologically sick and if proper attention can't be given they start to get physically ill, get phobias, different fears and these phobias & fears influence their belief system and make it fragile and once the belief system is weak the faith and then the spiritual body automatically get weak and evil can overcome easily.

Now if we talk about the other scenario where people choose to prove their selves the wrong way then the INNOCENT DEMON is a kind of this wrong way. Because the INNOCENT DEMON makes the patient do weird and absurd things and this makes him/her noticeable. People start to get scared of them because what if the INNOCENT DEMON become angry they will be in trouble, afterall demon is demon. These types of patient don't need any medication or treatment but attention and love because once they start to realize that people do care about them, they do love them the innocent demon slowly go away and stop making mischief. An important thing if you come to know that a particular person is not possessed by a demon but an innocent demon then don't let him/her know that you have been introduced to the innocent demon otherwise the situation will become more complicated and they may put their selves into more psychological issues and phobias that may really take a longer time to heal. Always show your best endurance to help them get rid of their INNOCENT DEMON.

Well so far so good, By explaining the INNOCENT DEMON I no way claim that demons don't exist but I tried to the explain the difference between the outer demons and inner demons so that it becomes easy for you to diagnose and treat.

Some people use their INNOCENT DEMON for their evil wishes, because they want to be superior, want people to dance around them and follow their orders, they possess a dirty and evil belief system

and are entirely different from those who choose to use their INNOCENT DEMON because they are neglected. People who use their INNOCENT DEVIL for fun and evil purposes are also spiritual/mental sick but it's a real hard nut to crack if you talking about their treatment because their mind has got used to an evil belief system, they are used to be believed as superior, they love to throw orders on others and make them dance like slaves and in this situation when someone say a single righteous thing it hurts their evil ego. Basically the only religion & beliefs system they follow, is to fulfill their evil wishes.

It takes months, sometimes years to bring them back to the righteous path or otherwise they remain alone in life later and repent.

It's really important to figure out the background and circumstances before diagnosis between these two subcategories of Innocent Demon.

Few years ago a devotee called me and informed about her uncle's daughter who was possessed by a DEMON and that she does some extremely weird type of things such as barking like dogs etc. When I probed further I came to know that his uncle was a well-off person and tried different psychiatrists but no success they also went to some QUAKCS occultists, gurus and spiritual healers, who made different stories of this possession and asked for money, black lamps and cow to remove all this but anyway they all failed no success at all.

After I was highly insisted I agreed to visit his uncle and the possessed girl. When I reached there I was given a warmed welcome and they didn't leave any stones until to prove their hospitality. One by one individually I gather & probe the information I required from all the family members and derived my result and told them to follow my instructions accordingly whatever it would be. At last I call the possessed girl and generally talked to her a few minutes and after that she was tied with ropes on a chair on my request. Anyways, I started to recite something and blew on girl as soon I did the face impressions of the girls started to get change and she started to behave in the same manner as I was told before (Barking like dogs, making the sounds of wolves and abusing using vulgar language etc.). The demon told his name SHANKER and I let him play as much as he could because I wanted him to be tired and after some minutes it finally happened, DEMON SHANKER finally got tired and kept on groaning and making sounds in a slow voice. At that time I asked everybody to leave the room and had HAROON (My Devotee) to stay in the room with me. When everybody left I grabbed a chair and sit in front of the girl and told her that now everybody had left the room and whatever we would talk would remain between you and me so now you and me, we both knows that NO SHANKER DEMON exists and if in this situation I left the room unsuccessful you would lose the game, you would again be dragged to different doctors, psychiatrists, QUACK spiritual gurus, occultists and many more and you would never be able to fulfill the goal for which you appeared DEMON SHANKER. But yes if you cooperate with me I assure you to help you to the last. Now what, after listening all this DEMON SHANKER suddenly went into deep shock for a few minutes and he kept on looking to my face and suddenly started to cry but that was not shanker who was crying. Anyways I pacified her and gave her a glass of water and asked her to be comfortable and start to tell me why she was using the

INNOCENT DEMON. She told me that she had done masters in mass communication but since her family is a business type family they don't oblige and appreciate the need of education and wanted the girl to get married with one of her cousin who even didn't see the collage and was a grade 10th failed but a millionaire. Even after a great opposition from girl they forcefully fixed and did the engagement ceremony. So when she found no other way she used the INNOCENT DEVIL and become obsessed with it. Well that was a complete unjust act of her parents, I mean no well educated girl would ever prefer to marry a non-educated guy.

Anyways after a long discussion and beating about bushes I finally made them agree that they must do whatever the SHANKER DEMON is saying because he's an innocent demon after all, and will surely leave the girl after her marriage of her choice. And from my side I assure them to trust me and our creator as everything would be alright and fine.

Today that girl is married to a doctor and got two sons and 1 daughter. This was a short but real story to make you understand one of the scenarios when INNOCENT DEMON possess.

Real Demonic Possession and Disruption

There are many reasons that why a person become possessed and disrupted by demons. Many times DEMONS possess and disrupt to revenge for if they know that someone tried to hurt them and disturb them and in these situations they don't only disrupt the particular person but all the related persons EX. Family members.

It's highly advisable not to right away pee in jungles, roads, mountains, seashores or anywhere else like this. Wise people always say that if you feel like pee during travel always mention it that you're going to pee so if anybody is around please leave the place.

There are some other important reasons of the possession and disruption of demons given below:-

- 1. Woman going bareheaded outside home*
- 2. Negligence of purity and purification in home*
- 3. Woman & Small children going to roof at the time of sunset*
- 4. Pregnant woman sitting under trees and going outside after sunset*
- 5. Leaving small children alone in a room*
- 6. Going from a unpurified places such as garbage dumps and similar places*
- 7. Negative belief systems and Weak faith on creator*
- 8. Negligence of Haram Acts*
- 9. No Quran Recitation and Prayers In Home*
- 10. Developing so much interest about Evil & Demons*
- 11. Chronic spiritual and psychological disease (because they makes your spiritual body weaker)*
- 12. Being close to a person who's already possessed*
- 13. Doing different chants, occult practices without the guidance of any teacher/guru*

Demons are also sent on the will of magician in black magic we'll talk about it letter. As for now remember always that prevention is always better than cure.

Symptoms

It's true but not compulsory that demons should always possess, normally they disrupt you in different manners. Below are few of the important symptoms I'd like to highlight.

1. *Feeling constant burden over head and headaches*
2. *Feeling lethargic all the time*
3. *Feeling unease while reciting Quran and offering prayer*
4. *Feeling uncertain fears specially when it's about to sunset & in nights*
5. *Feeling burden and unknown heaviness on your shoulders*
6. *Really poor appetite*
7. *Getting angry on little things and being peevish and grumpy*
8. *Unknown disappointments and feel like suicide*
9. *Unknown weird thoughts that you don't like*
10. *Deep personality changes. For example, someone stays at home all the time when they used to be very gregarious.*
11. *Sudden weight loss, becoming pale and getting dark circles*
12. *A disease that medical science is not aware of*
13. *Feeling something touch you, scratch you, or otherwise attack you.*
14. *Hearing one or multiple voices in your head that are negative, persuasive, or commanding you to do something. For example, hearing a voice persuade you that a certain friend should be avoided, or asking you to let them "in" to your life in some way.*
15. *Any kind of phenomena. For example, scratching sounds, things falling off walls or shelves, religious or spiritual items being moved or changed.*
16. *Feeling hatred amongst family members and unnecessary fights over little things*

Demons can also be sent on the will of magicians. Black magicians send the demons that they have invoked so far and send to disturb people, creating hatred between husband & wife, making someone sick, making someone scare etc.

Something more about this Chapter

*Alike human there are good demons and there are evil demons. Evil demons start to revenge and disrupt humans over as little things as aforementioned above. Good demons have their nutrition from bones and evil demons have their nutrition from bones, poops (shit) and garbage. Good demons love the fragrances and purification but evil demons love the smells and unpurified places, people. When throw the bones or dump in garbage you left in your meal always recite "**Bismillah Hir Rahman Nir Raheem**" so that it becomes the nutrition of Good demons not evil ones.*

Succubus & Incubus

It's a type of evil demons that are really fond of adultery and to fulfill this they victimize human while sleeping. In different languages and cultures there are different names of Succubus & Incubus. They normally come into action after 12 midnight and victimize human while they are sleeping and do the adultery in a dream state and become the reason of whatever you call it (Night Fall, Wet Dream) or anything else. While doing adultery they suck the life energy/life force which is one of the essential energy human possess. Their female victimize males and males victimize females this is why it's highly advisable to recite "Ayatul Kursi 3 times", "Surah-e-Falaq & Nas 3 times", "Surah Ikhlas 3 times", "Surah-e-Kafiron 3 times" and blow on yourself before going to bed.

People into black magic do the invocation of these demons and use them for their own evil purposes and in return fulfill their desire of adultery with them.

These demons are found to be more interested in the males and females who are already into pornography and other immoral sexual behaviors. When they find their desired victims they make him/her used to them once they are used to then a time comes that they start to give him/her signs of their presence while in a awaken state and slowly appear in front of them and fulfill their evil desires by sucking up the life energy from the victim.

These cases are reported in the west because in the east if something like this happen with a girl she avoids and feel it shameful to share this with anyone or even if she shares her family scolds and hushes the matter up and don't give any attention towards it.

Unfortunately there's real information available out there so far about this particular topic in our society and people avoid to discuss these things don't know why.

In early 2005 a same case came into my knowledge and the victim was living in U.S but actually belonged to Pakistan. According to her it started when she was 17. Initially she started to have wet dreams thrice or twice in a week and sometimes entire week in a row. Slowly she started to become weak and started to enjoy the dreams and after that the demon started to gave signs to her, sometimes by touching, blowing like air and all this. She got really scared and talked with her mother and same thing happened as I told you above, she was scolded and family thought it's because she was growing up so they fixed her marriage within a year without realizing the intensity of the matter. But this was not going to stop, after marriage she migrated U.S to her husband and within a few months the demon started to possess the husband every night and do the adultery in wildish and abusive manners. As I told you before these demons suck life energy so at the age of 22 she was weak like old lady, she got arthritis, cervical spondylosis and high B.P. Anyways she somehow came to know about me and contacted me after the treatment of around a year she finally got rid of this thing.

These days over internet if you search for the particular topic "Succubus & Incubus" you should come with a hell of results about this topic and the Black Magicians and Devil Worshipers has presented it as an entirely different phenomenon. They lure you to invoke these demons with different type of evil practices published over internet and present these demons as nymphs of heavens and encourage you all the way by furnishing their and other devil worshipers experiences about the joy and pleasure you would have by doing adultery with these demons.

I beg you on the sake of your welfare that please never get trapped by any of the websites, books or person ask you to do so because these demons are highly life energy sucker and once you're trapped it will be next to impossible for you to get out of this and will only repent entire your life. And if somehow you have been already lured someway so stop right away and ask Forgiveness from your creator before it's too late.

The Reality of Black Magic

The existence of black magic can't be denied. Every religion admits the existence of black magic and considers it as an evil thing.

Basically black magic is a religion in itself and one who practices it has to embrace it and have to follow the rulings in it. Ex. Believing in EVIL BEINGS & their powers, following their instructions. Some of the black magic rituals and ceremonies can't be completed until the practitioner does the adultery and remains unpurified for 40 days or in some the practitioner has to eat his own poop and do the rituals in extreme dirty places like washrooms etc.

Same like this the talismans of black magic are prepared with semen, menstrual blood, blood of Haram Animals such as OWL, DONKY and body parts of different animals such as liver of jenny, eyes of oil and many others are used for different types of black magic.

Black Magician fixes guardians for every black magic ritual, ceremony or any other evil invocation or in easy words by taking the help of evil guardians because if they don't make guardians and don't take their help the magic will be useless.

Who the guardians are?

Well evil guardians are bad demons, evil spirits, evil beings a practitioner invokes them and takes their help. Normally black magicians remain unable to have any offspring or in some cases male offspring it's because of the guardians they invoke, because when they invoke them an agreement is being made between the magician and the guardians and the most asked demand by the guardians is that the magician has to remain without any child or male child so even if the magician tries a thousand times he won't get children at all. If later the magician doesn't follow the agreement the guardians will start to disrupt and destroy him.

As I told you before as well that demons are also sent on the will of the magician to fulfill their evil desires.

There are a lot of things done by the help of Black Magic

- 1. Creating hatred between husband & Wife***
- 2. Creating hatred between any relation (Brother, Sister, Son Mother or any)***
- 3. Destroy the business of victim***
- 4. Making a women infertile***
- 5. Making a man unable to have sex***
- 6. Making someone sick***
- 7. Attracting a male or female towards you to fulfill your evil desires***

And many others things but again it doesn't mean to throw every issue in the court of black magic or as an outcome of black magic it's surely not wise to do so. As I told you before people with negative belief system often do that and I've mostly come across more woman than man because they are rather superstitious.

Symptoms of Black Magic

- 1. Finding unknown and uncertain holes in your cloths like some bug did it***
- 2. Tearing of trousers/pants from the fly area more often***
- 3. Disease that medical science is not aware of or not sure of***
- 4. Chest pains***
- 5. Headaches***
- 6. Joint pains***
- 7. Feeling lethargic all the time***
- 8. Feeling as if you're eyes burning and eyes remain red***
- 9. Feeling really itchy all over the body or feel like someone's needling your body***
- 10. Feeling really high body temperature that comes normal in thermometers***

And other symptoms are related to the symptoms of Demonic Possession & Disruption.

It's really important to do the treatment of demonic possessions/disruptions and black magic, because the more the treatment delays the more they makes their roots strong in the human body and a time comes when they completely rooted and it becomes impossible to cure them.

Diagnosis of Demonic Possession/Disruption & Black Magic

The first thing that comes is the right diagnosis. For the diagnosis purposes I'm going to teach some very easy methods so even a common reader with no experience can make the most of these methods.

Method #1

Do the ablution (waddo) and take the unclean shirt of the patient which was worn by him/her for atleast 12 hours. Now measure the length of the shirt from up to down when done recite the first Surah (1st chapter) of QURAN "Al Fatiha" (The Opening) 70 times and blow on the shirt of the patient and then again measure the length of the shirt from up to down. If the measurements increase or decrease it means that the black magic or demonic possession & disruption is present but If the measurements remain same then there's nothing to be worried about.

Method #2

Do the ablution (waddo) and Measure 11 strings of blue woolen from head to toe of the patient and now give four folds to the 11 strings. Now recites Surah-e-Al-Falaq (113th chapter) and give a knot to the tip of the folded strings and while knotting blow in the knot. Repeat the same knotting method and give another knot after the first knot (repeat the whole method and do the knotting while reciting Surah-e-Al-Falaq and blowing in the knot) now make total 11 knots the same way. When done burn the knotted strings on coils/wood not over gas or electric stove, when they will be burnt they will produce a particular type of burnt woolen smell if this smell is not produced from the strings it means that black magic or demonic possession & disruption is present.

Method #3

Do the ablution (waddo) and offer two rakaat namaz (salaat) with the intention (niyyat) of salaat-ul-istekhara and keep in mind your question that if the particular patient is suffering from black magic or demonic possession and disruption. Now when after "SANA" recite Surah Al-Fatiha (first chapter of QURAN) and when come to ayah #2 of this particular surah which is "IHDINUS SIRAAT AL MUSTAQEEM" keep reciting it after a few minutes you will realize that you're turned towards right or left. If turned towards left no black magic & demonic possession and disruption is present otherwise if turned towards right then yes its present.

Method #4

Do the ablution (waddo) and measure a single string of silk thread from top to toe of the patient and when done recite any darood shareef 11 times, then recite Surah Al-Muzzamil (chapter 73 of QURAN) and then again recite any darood shareef 11 times. Now measure the string again if the measurements remain same then no magic or demonic possession & disruption is present if the measurements increases or decreases then yes its present.

Method #5

Do the ablution (waddo) and take the unclean shirt of the patient which was worn by him/her for atleast 12 hours. Now measure the length of the shirt from up to down when done recite the first Surah (1st chapter) of QURAN "Al Fatiha" (The Opening) 7 times, Recite Surah Al-Falaq (chapter 113 of QURAN) 3 times, Recite Surah-e-An-Naas (Chapter 114 of QURAN) 3 times and Recite Ayatul Kursi 3 times and blow on the shirt of the patient and then again measure the length of the shirt from up to down. If the measurements increase or decrease it means that the black magic or demonic possession & disruption is present but If the measurements remain same then there's nothing to be worried about.

Ayatul Kursi

اللَّهُ لَا إِلَهَ إِلَّا هُوَ الْحَيُّ الْقَيُّومُ ۚ لَا تَأْخُذُهُ سِنَّةٌ وَلَا نَوْمٌ ۗ
 لَهُ مَا فِي السَّمٰوٰتِ وَمَا فِي الْأَرْضِ ۗ مَنْ ذَا الَّذِي يَشْفَعُ عِنْدَهُ
 إِلَّا بِإِذْنِهِ ۗ يَعْلَمُ مَا بَيْنَ أَيْدِيهِمْ وَمَا خَلْفَهُمْ ۗ وَلَا يُحِيطُونَ
 بِشَيْءٍ مِّنْ عِلْمِهِ إِلَّا بِمَا شَاءَ ۗ وَسِعَ كُرْسِيُّهُ السَّمٰوٰتِ
 وَالْأَرْضَ وَلَا يَئُودُهُ حِفْظُهُمَا ۗ وَهُوَ الْعَلِيُّ الْعَظِيمُ ﴿٢٥٥﴾

Allah, none is worthy of worship except He, the Hayyul Qayyoom (the ever-living, the One who sustains and protects all that exists). Neither slumber nor sleep overtakes Him. To Him belongs whatever is in the heavens and earth. Who is there that can intercede before Him except by His permission? He knows what happens to them before them and behind them. And they will never encompass anything of His knowledge except that which He wills. His throne extends over the heavens and earth. And He feels no fatigue in Guarding them. And He is Most High, Most Great.

Treatment of Black Magic & Demonic Possession & Disruption

Before we go ahead towards the methods of treatment I'd like you to first read and understand few key points to make the treatment more powerful and significant.

- 1. Whatever methods mention in this book required the performer to do ablution (waddo) before performing any of them.***
- 2. Must do the Spiritual Protection (will be told later about how to do it) before conducting any method mentioned in this book***
- 3. Do the charity of Rs. 101 PKR or buy some food to the poor with the money before conducting the methods mentioned in this book.***

During treatment of black magic & demonic possession and disruption it's considered very significant to do the charity (SADQA) by and by on the behalf of the patient.

Charity (SADQA)

Either its black magic, demonic possession or any other disease charity is considered a very important factor. Charity (Sadqa) saves you from evileye, hatred, envy, physical and spiritual diseases, evil diseases, and increase your health, wealth and success unlimited.

There are many ways and methods to give general charity (Sadqa) and I'm going to explain them.

- 1. Buy some meal to poor*
- 2. Buy some cloths to poor*
- 3. Give some money to poor*

The charity (Sadqa) which is considered and highly advisable while the treatment of evil diseases is to give food to the animals and I'm going to explain how you can do so.

With the use of four basic elements the charity (Sadqa) is given and according to the element of the patient.

- 1. Element Fire: - Giving food to Carnivorous animals such as (meats, liver, lungs, fish etc.)*
- 2. Element water: - Giving food to sea animals such as (floor balls, boiled rice etc.)*
- 3. Element Air: - Giving food to birds such as (millet, wheat, water etc.)*
- 4. Element Earth: - Giving food to insects such as (sugar, rice, lentil etc.)*

Now you must be thinking how to find out the element of the patient so it's quite simple, below the method is mentioned to find out the element and how to give Charity (Sadqa) Then.

Find the personality element according to your start from the chart given below

1. **Fire:** - Aries, Leo, and Sagittarius
2. **Earth:** - Taurus, Virgo, Capricorn
3. **Air:** - Gemini, Libra, Aquarius
4. **Water:** - Cancer, Scorpio, Pisces

Now always give the charity (Sadqa) of the opposite element. Let's say your birth star is VIRGO so your personality element is EARTH the charity (Sadqa) should be given of the element Air. Below is a chart which will help you understand more.

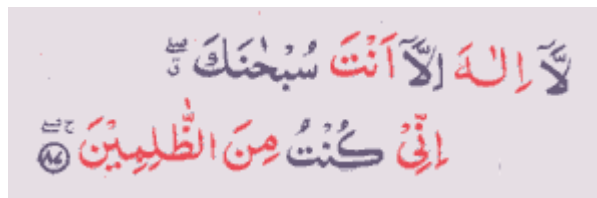

For the element fire people the best charity (Sadqa) is element water.

For the element water people the best charity (Sadqa) is element fire.

For the element air people the best charity (Sadqa) is element water.

For the element earth people the best charity (Sadqa) is element air.

Before giving the charity (Sadqa) place the right hand of the patient on the charity (Sadqa) and recite make dua to Allah izzu jal for his well being and recite the Ayat given below 7 times and then give out the charity (Sadqa).

Spiritual Protection Method

Do the ablution (waddo) and recite any darood shareef 11 times, 3 times Surah Al-Fatiha (first chapter of QURAN), 3 times Surah Al-Kauser (Chapter 108 of Quran), 3 times Surah Al-Kafiroon (chapter 109 of QURAN), 3 times and Surah Al-Ikhlās (Chapter 112 of QURAN), 3 times Surah Al-Falaq (Chapter 113 Of Quran), 3 times Surah An-Naas (Chapter 114 of QURAN), 3 times Ayatul Kursi (you may find it on above pages), then recite any darood shareef 11 times. Now blow on your hands and move your hands on your entire body from top to toe. Now you're spirituality protected and may conduct any of the treatment method mentioned in this book.

Easy Cure

Now you're going to learn the easy and empirical treatments of black magic & demonic possession and disruptions. Always remember that good faith on both healers and patients end plays an essential role in every spiritual treatment/healing. It takes less time to heal a patient who has good faith on Allah izzo jal then a patient who has already lost his hope, infact patients with less or very less hop takes months to be healed.

Believe me if you have a strong faith then only the last 2 chapters of QURAN (AL-FALAQ & AN-NAAS) are enough for you to heal you from any evil disease but if you have less hope and faith then the fountain of youth is even not enough to heal you.

Patients faith, courage and will play an essential role in any type of healing although I understand that because of evil disease and negative belief system these abilities get weak but I really would like to do my humble request to fight, cleanse your belief system and make your faith stronger in yourself in your creator and you will see yourself how your creator fills your life with unlimited health and peace. This has been my prayer for all of you and will always be.

Method #1

(for the treatment of black magic & Demonic Possession & Disruption)

Required items: - 12 White ceramic plates, 1 new ink pen, some saffron or yellow food color, half cup of rose water, 1 big water bucket.

First of all dissolve the saffron or food color in the rose water (Remember if you're using saffron dissolve it and leave it over night). Now do the spiritual protection and keep all the items near you.

Now dip the pen into the solution and on a plate write the surah as given below.

First of all write

أَعُوذُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ

Then write

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Then write Surah AL-Fatiha, Surah Al-Kafiroon, Surah Al-Ikhlās, Surah Al-Falaq, Surah An-Naas.

(Remember don't just write Surah-e-Fatiha Or Surah-e-Ikhlās here I mean to write the complete surah in Arabic from QURAN)

One plate is ready now write all the plates the same way

Now fill the bucket with clean water and dip all the plates in the bucket and clean the plates, once cleaned moved them out from the bucket. The purified water is ready. Now fill 2 bottles (around 1 liter capacity each) with this purified water and leave remaining water in the bucket as it is. Ask the patient to make ablution (waddo) with the bucket (Remember that water should not be spilled on the floor or anywhere else but in the bucket). Now make the patient stand in the bucket in the purified water and pour the water on the patient slowly and gently (Remember that water should not be spilled on the floor or anywhere else but in the bucket) do this for few minutes and then throw the water into the sea, river, pond or in flower pots/garden etc. (Don't drain the water in drain and unpurified places)

Now this is how you will use the 2 bottles of water we had already taken out.

Sprinkle water from one bottle to every corner of your home once daily (Remember don't sprinkle the water in the corner of unpurified places such as toilet etc.). When you feel the water is getting finished add some more water in the bottle.

Drink 3 sips of the water after reciting "Bismillah Hir Rahman Nir Raheem" from the second bottle with every Azaan (Prayer calling). When you feel the water is getting finished add some more water in the bottle.

Note: - it's not compulsory that some other person must pour the water on patient, adults and woman can do this themselves just be careful when pouring that water shouldn't be spilled on the floor. If in case there is more than one patient so there's no need to write 12 plates individually, in this case write 12 plates and use more water to clean them so that the water will become enough for everyone.

Now make the patient stand in the bucket in the purified water and pour the water on the patient slowly and gently (Remember that water should not be spilled on the floor or anywhere else but in the bucket) do this for few minutes and then throw the water into the sea, river, pond or in flower pots/garden etc. (Don't drain the water in drain and unpurified places)

Note: - it's not compulsory that some other person must pour the water on patient, adults and woman can do this themselves just be careful when pouring that water shouldn't be spilled on the floor. If in case there is more than one patient so there's no need to do the method individually for everybody, in this case use more water so that the water becomes enough for everyone.

Turning Back the Magic to the Magician

On many of requests of people I receive about the particular topic, I would to add some points to it.

Many people ask me about how to turn the black magic back to the magician and they ask because they are depressed and disappointed and therefore they want to turn it back so that it becomes a lesson for the magician.

Ok let's talk some detail....

As aforementioned, for any black magic magician fixes the evil guardians (evil demons, spirits, negative entities etc.). In easy words evil beings give their full assistance to magician to make the magic successful.

Whenever you go to a pious and righteous healer he never suggests getting yourself in this fools game called "TURNING BACK THE MAGIC" but he always gives the full attention towards your treatment. While at other hand if you go to a person for the same purposes who does black magic or even a spiritual healer but does this job for material causes and money, they always provoke you more and encourage you to play the game of "TURNING THE MAGIC" and assure you that they can do it in a jiffy for you, if you want. Because they know once you get yourself into this fools game you will become a precious item for them.

Now what actually happens in the background is whenever you turn the magic towards the magician, the evil guardians pay for it because they are the actual powers, protectors and people working behind all this. Now when evil guardians get hurt they try to find out who did this and who turned the magic back once they find out which is really easy for them, they come out to revenge you personally. Now the situation gets changed. Previously they working behind a black magic because someone casted it on you and they didn't have any personal issues with you but now they really have some personal business. And as I told you before they really love to revenge and their entire tribes come to revenge if they feel they are lacking the power and follow you and your family generation after generation. So now you become trapped and become the precious item of the healer or magician now you will run away again and again to him to ask him to help you and he will keep ripping you off by taking some money and give you a comfort which is not last longer.

This is why the pious and righteous healer never advice you to get in to this fools game because they already aware of the issues coming ahead once you get into it and therefore they warn you and advice you to stop.

At Last!

I pray to Almighty Allah to heal all of you, whoever is sick gets heal and gets a long life, whoever is depressed and have no peace gets unlimited peace, whoever have no children may Allah izzo jal gives them pious and righteous children, whoever facing finance and wealth issues may get unlimited wealth, Whoever is unmarried and looking for the right person may get married soon, Students may get the fond of education, and May Allah izzo jal fill our hearts with his land his beloved Prophet Mohammad Sallal Lal La Ho Aleyhey Wasslams's Love Ameen.
